**Subject:** NASDAQ Global Equity Capital Markets contact

Good afternoon,

I wanted to introduce myself as the new head of NASDAQ OMX's Global Equity Capital Markets Team. In the coming weeks and months you will be hearing from us about NASDAQ and some of our services.

I wanted to make you immediately aware of is our online listing application. You'll find that any issuer that has submitted an EDGAR filing most of the form will be pre-populated. You can find that at: <https://listingapplications.nasdaqomx.com>  
<<https://listingapplications.nasdaqomx.com>>

We are also getting a positive response from executives, advisors and investors about the tools in our director board portal called Directors Desk. Directors Desk allows you to manage all of the Boards you work with by using a single sign on to all of your companies' materials in an easy to use, secure, web based environment. Here is the web link: <http://www.directorsdesk.com/advantage/> <<http://www.directorsdesk.com/advantage/>>

Let me know if you have any interest in further information about either service.

Best,

Karin

Karin McKinnell

Senior Managing Director, Global Equity Capital Markets

Vice President, NASDAQ OMX
